

Planning Performance Accelerator

A clear, fast view of your planning performance. Identify immediate improvement opportunities that can deliver quick wins, while providing an actionable roadmap to more effective planning performance.

What is Planning Performance Accelerator?

A focused, diagnostic assessment of your planning systems. In under two weeks, you get a clear baseline of your planning system maturity. What's working, what's not and where to focus first.

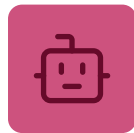

System effectiveness

Do your systems support core planning processes and integrate across your landscape?

System reporting

How easily can you access the right insights, monitor performance and manage exceptions?

System capabilities & intelligence

Can you automate planning, model scenarios and collaborate across your network?

At a glance

Duration	Two weeks, end-to-end
Time commitment	4–5 hours of customer input plus a 2–hour playback session
Roles involved	Planning, planning systems, IT, AMS
Approach	Questionnaire, workshop and targeted interview
Outputs	Written report of current maturity, gaps, quick wins and actionable recommendations, plus playback of findings
Delivery	On-site or remote (on-site recommended for Phase 1)

Phase 1: Input and alignment

We start by understanding your world, from both a system and business perspective.

- ✓ Pre-workshop questionnaire ~20 minutes
- ✓ Half-day workshop with your key stakeholders ~4 hours
- ✓ 1:1 interview with your functional head to validate and deepen insights ~1 hour

Phase 2: Assessment and analysis

We turn your input into a clear and honest view of your system performance.

- ✓ Assess your planning systems against a defined maturity framework
- ✓ Evaluate system effectiveness, reporting and capabilities
- ✓ Identify gaps, inefficiencies and improvement opportunities

Phase 3: Outputs and playback

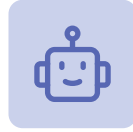

We bring everything together and walk you through what it means.

- ✓ Concise written report with visual summaries and supporting insight:
 - Scored maturity snapshot
 - Gap analysis and improvement opportunities
 - Prioritised recommendations and quick wins
- ✓ Playback session including discussion of recommendations and alignment on next steps ~2 hours
